They also develop and maintain formularies, which are lists of dispensable drugs covered by a particular drug benefit plan.

- Check whether a prescribed medication is covered (in formulary) under a patient's plan

- Download a histories list of all medications prescribed for a patient by any provider

In summary, we ask your permission to obtain formulary information and information about other prescriptions by other providers using RxHub. This consent will be in place until revoked in writing. I give permission for Rx History consent: (yes/no) _____
